AREA OF EXPERTISE

Georgia joined the Colliers International Office Leasing Department in early 2018 and brought with her a high degree of experience in lease negotiation from her background in telecommunication at Proptel.

Georgia specialises in the leasing of existing office premises particularly in the Adelaide CBD markets whilst assisting in the Adelaide Fringe and Metro office markets.

Prior to joining the Office Leasing team in 2018, Georgia worked as a Property Consultant to the telecommunications industry and negotiated leases for several carriers such as NBN, Telstra, Vodafone and Optus. Having completed over 200 deals Australia wide, including upgrades to current telco sites and new greenfield sites, Georgia has shown that she can work efficiently while being extremely time conscious. Her ability to handle large volumes of work is apparent.

PROFESSIONAL ACCOMPLISHMENTS

Georgia completed her Bachelor of Business (Property) in 2016 and has gained significant experience in negotiating leases.

Georgia's high level of attention to detail supports her strong work ethic and desire to always achieve the best possible results for her clients.

Ray White – Residential Property Manager
2013 - 2016

COMMUNITY INVOLVEMENT

Colliers International is committed to giving back to the communities in which we live and work. For almost 15 years we have partnered with United Way, Community Funds of Australia, to deliver a national Community Care Programme.

Georgia volunteers for Kick Start for Kids who run a breakfast program for schools in low socio-economic areas. Volunteers provide breakfast to children who would otherwise come to school hungry, which enables them to focus on their learning.
