JP Kleinhelter

Area of Expertise

JP Kleinhelter is a Lead Engineer in the Real Estate Management Services division, assisting with over 2.5 million square feet of industrial and office assignments. J.P. handles facility needs including plumbing, electrical, HVAC, general carpentry, and key control systems. He is a dependable member to the team and is usually the first to respond to any emergency arising at the properties.

JP consistently delivers top-notch customer service for his tenants and buildings owners. For his focus on high client satisfaction, JP received the firm's "Peak Performance Award" Property Management Award in 2011. Prior to joining Colliers, JP worked for Federal Express and with Hartman Construction working on general remodeling, room additions, and estimating projects.

In his spare time, JP enjoys being outdoors, exercising, spending time with family, landscaping, and bowling.
