AREA OF EXPERTISE

Throughout his career as a real estate professional, Scott Morgan has maintained his strong client base and reputation for focus on suburban office properties because he has developed strong relationships with landlords whom he continues to represent in leasing and sale transactions.

Scott prides himself on being extremely up to date on significant suburban office developments and trends in the West Michigan market.

Focusing on owner-occupant office building purchases, Scott uses a series of analytical tools, and has been very successful in helping many businesses make their first real estate investment by purchasing their own building.

Scott also continues to devote more energy to the growing medical and health care industry in West Michigan, and has closed over 50 medical transactions in the past 10 years, representing area physicians in both purchase and lease transactions.
